January 25, 2012

The Nassau County Village Officials Association (NCVOA), of which Plandome Heights is a member, is proud to announce the offer of an 8% discount on the supply cost of natural gas to residents and business of the 64 villages of Nassau County. Village residents and businesses may take advantage of an agreement with East Coast Power and Gas, an independent retail energy supplier.

The program is simple. When you enroll with East Coast Power and Gas your natural gas supply will be priced at an 8% discount as compared to National Grids monthly posted price. National Grid will continue to read your meter, maintain the gas lines and provide emergency service for any leaks. National Grid will continue to bill you for the delivery of the gas to your property as they have in the past.

The only thing that changes is the gas supply charge will be replaced by East Coast Power and Gas's charge (which is 8% lower than if you had purchased your gas from National Grid). You will continue to receive one invoice with both the National Grid delivery charge and the East Coast gas supply charge. You make one payment to National Grid and they will forward to East Coast their portion.

**To Summarize:**

- You receive an 8% discount on your gas supply.
- No Sign-up or Cancellation fees, and no long-term commitment.
- National Grid continues to deliver and bill for delivery as in the past.

**How to Enroll:**

- Wait until Feb 15<sup>th</sup> (the VPH Board needs until then to finalize paperwork)
- Go to NCOVA.org and sign up online
- Call East Coast Power and Gas directly at 516 442-0155

**When enrolling, have your National Grid account number handy.**

This is likely the last official communication you will receive from me as your Mayor. I want to thank all the hard-working volunteers and staff who have made this administration so productive. Good luck and many thanks to one and all!

Sincerely,

*Diana Merenda*

Mayor
